## At Rest.

Heyo Schweers was born Dec. 31,  
1836, at Ackelsberg, Kirchspiel, Hol-  
trop Provinz Hanover, Germany.

In Dec. 1855 as a young man of 19  
years, he came to America with his  
parents and settled at Upper Quibi  
where they made their home till 1907;  
after which they moved to Hondo.

On Sept. 2nd, 1865, he was united in  
Holy matrimony with Margaretha  
Schluenz. This union was blessed  
with 12 children, 2 of which died in  
their infancy.

Shortly after coming to America he  
united with the Methodist Church of  
which he has been a faithful member  
to his end, and in which he has been a  
real pillar, and has held different of-

fices. The church could always depend  
upon him doing his full duty.

Shortly before his passing away he  
told his pastor his life story in which  
he said that he was converted as a  
single young man, and when he got  
married erected a family altar and  
through their long married life of 54  
years and 3 months there was not a  
day when the fires on this altar were  
not kept burning; when he was sick  
that he could not read the Holy word  
of God and pray with the family, the  
faithful wife that he had chosen as his  
helpmate took his place.

He also said that he had settled  
down close to a large waterhole; and  
as they were three brothers, and could  
have branded and marked mavericks  
every day and could have become rich  
in this world's goods, but that he had  
no desire for such things; that his  
motto in life had been rather to loose  
2 heads of cattle, than to gain 1 in an  
unjust way, and rather loose 2 dollars  
than to gain 1 dollar in an unjust way,  
and that they were often laughed at  
and mocked in account of the motto  
he had set in life; but that he was  
praising God now that he had given  
him the grace to carry this motto  
through life, and that no such things  
as above mentioned were covering his  
Heavenly Father's face or cutting of  
his sweet communion with God.

Throughout his long illness those  
that were near him never heard a  
murmur or complaint over his lips,  
but he often said: he could have  
what he wished he would not know  
what to wish for, for God had richly  
blessed him in his life for which he  
could never be thankful enough. And  
his near and dear ones had been so  
kind to him that he could not thank  
them enough for the happiness they  
had brought to his life, and that he  
was ready to meet God in peace. His  
wish toward his loved ones was that  
they should so live through the grace  
of God as to meet him again in  
Heaven.

Come and see the new pictures.

"The Jusille Leaf," a juvenile journal, published under the auspices of the Senior class of the Hondo High School, will make its initial appearance here next week. This little journal is intended to take the place of a school annual and will be a work of pride and love on the part of the seniors. They will appreciate any support, either financial or moral, extended them, and it goes without saying that any one who keeps a complete file of the issues as they come from the press will have a souvenir of the 1919-1920 term of school that they will cherish in after years. If you are interested—and you should be—in this juvenile venture see some one of the Senior class.

### Class Reunion.

The graduates of 1919, Dee Crow, Bess Earnest, Marguerite Ulbrich, Dutz Davis, Lee Nora Tondre, Gladys Newton, Ruth Fay, Georgia Schmidt, Joe Brucks, Kathleen Lynch, Alvis Koch, Bunny Flint and Chauncey Ulbrich, held a class re-union Friday night, Jan. 2, at the home of Mr. and Mrs. Flint. The very interesting game of "spin the pan" was played first. The forfeits were mostly class rings, hairpins, cigars and handkerchiefs. After this excitement was over the Edisons were kept going until refreshments were served, which consisted of all kinds of sandwiches, fruit salads, olives and hot chocolate.

After refreshments, to the strains of "The Wedding of the Waves" Lee Nora Tondre led her bride, Dutz Davis, to the library table where Chauncey Ulbrich performed the marriage ceremony. The flower girl was Gladys Newton and Joe Brucks was ring bearer. The bride's bouquet was caught by Dee Crow. The new y weds were the recipients of many beautiful and appropriate gifts among them some lovely china and aluminum ware.

It was at a very late hour when the "Lucky Thirteen" departed for their respective homes hoping that next year they might all meet again.

## WHAT NEIGHBORS SAY

Houston, Texas.—"Dr. Pierce's medicine has given me such wonderful relief that I am glad to give this recommendation just what it has done for me. I used to suffer with woman's weakness and by the persistent use of Dr. Pierce's Favorite Prescription I was restored to health and I have also taken the 'Prescription' during pregnancy and it was very beneficial; it kept me strong, healthy and helped me in every way. It is the best medicine for women I have ever taken."—Mrs. ALLIE JOHNSON, 2503 Runnels St.

Every woman who has reason to believe that backache, headache, unnatural pains, low spirits, sleepless nights, irregularities or a catarrhal condition is caused by a derangement of the womanly functions, owes it to herself and dear ones to speedily overcome the trouble before a general breakdown causes permanent prostration.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs containing tonic properties of the most pronounced character. It is not a secret remedy because its ingredients are printed on wrapper.

## Boehme-Haby.

One of the prettiest weddings of the new year took place Tuesday morning at 10 o'clock in the St. Louis Catholic church, when Miss Millie Haby, oldest daughter of Mr. and Mrs. Alex L. Haby, became the bride of Mr. August Boehme, son of Mr. and Mrs. Max Boehme, Rev. A. Heckman officiating.

The attendants were: Miss Henrietta Boehme and Oscar Haby, Miss Martha Haby and George Boehme.

The bride was beautifully gowned in handsome white satin, trimmed in Georgette and pearl beads, with a long train; her veil was of Spanish style and she carried a magnificent shower bouquet of white rose buds and ferns.

The groom wore a handsome black serge suit. The bride's maids were dressed in white messaline trimmed in white satin ribbon, and each wore a spray of white flowers in her hair.

After the ceremony at the church the bridal party repaired to the home of the bride's parents, Mr. and Mrs. Alex L. Haby, at Haby Settlement where an elegant dinner was served. The happy couple will make their home at the Gilliam ranch, where they will be pleased to have their friends call on them.

## Edmond F. Brieden.

Edmond F. Brieden departed this life on the morning of the 28th day of December 1919, at 6 a. m. at El Paso, Texas. Mr. Brieden was a native of Medina County, being born at D'Hanis, Texas, the 27th day of September, 1873. In the year of 1886 he moved with his parents, Mr. and Mrs. Andreas Brieden, to Devine, Texas, where he finished his education at the Devine Schools. Later years he went to El Paso, Texas, to work for the Southern Pacific Railway Company, where he was promoted to a railroad conductor at the time of his death. The remains were shipped to San Antonio Tuesday morning December 30th. The funeral was held at the Ludwig Undertaking Parlor at 1 p. m. and was then taken to Devine, where he laid in state in the St. Joseph's Hall for one hour where his numerous relatives and friends viewed his remains, thence taken to the St. Joseph's Catholic Church where the beautiful ritual of the Catholic Church was read by the Very Rev. R. Planchet. Interment was made in the St. Joseph's Cemetery, followed by a large concourse of relatives and friends.

Mr. Brieden is survived by his widow, and three step children, Harold Acosta of El Paso, Texas, Frank Acosta of Louisiana; Mrs. Sadie Anderson, Chicago, Ill., also two children, Zola and Herbert Brieden of El Paso, Texas; one brother, Albert Brieden of Devine, Texas; four sisters, Mrs. Theresa Poerner, Devine, Texas; Mrs. Eliza Ahr and Mrs. Rosa Ahr, San Antonio, Texas; Mrs. Emma Keller, Devine, Texas, and numerous other relatives. May their souls and the souls of all the faithful departed through the mercy of God Rest in Peace. CONTRIBUTED.

## Fever Sores.

Fever sores and old chronic sores should not be healed entirely, but should be kept in healthy condition. This can be done by applying Chamberlain's Salve. This salve has no superior for this purpose. It is also most excellent for chapped hands, sore nipples, burns and diseases of the skin.

Personally we hope it is true that the cost of living is coming down. We are tired of standing on tiptoe to reach it.

## To the Dyspeptic.

Would you not like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that Chamberlain's Tablets have cured others—why not you? There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.

## Experiment Station at Natalia.

W. B. Smith, with the Agriculture Department in the division of Irrigation and Drainage, is now located at Natalia, to test our irrigation, drainage, evaporation, etc., in connection with rice growing and other agricultural pursuits on this big irrigation system. Mr. Smith was a pleasant caller one evening this week and we hope to hear more of his work. He will have about 27 acres irrigated lands to experiment with, and will work with the rice men, who are already preparing their lands for 4,000 acres of rice, which we recently mentioned in these columns. — Devine News.

## No Great Act of Heroism Required.

If some great act of heroism was necessary to protect a child from croup, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of croup appears, there are many who neglect it. Chamberlain's Cough Remedy is within the reach of all and is prompt and effectual.

Personally we don't claim to be a clairvoyant, but our guess is that the narrowest skirts are worn by knock-kneed girls.

Also the wolf would be more welcome at our door if he would catch the mice in the house.

## \$100 Reward, \$100

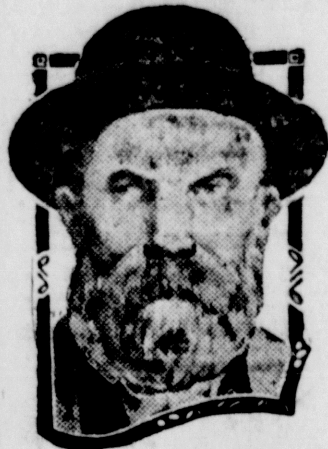

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. ## PE-RU-NA

THE REMEDY FOR EVERYDAY ILLS

"I have used Pe-ru-na for years in cases of colds and catarrh. The results have been good, in fact, more than you claimed. Have also taken Lacupia and can easily say it is one of the best blood purifiers I have ever used."

Mr. J. F. Arendt

## For Catarrh and Catarrhal Conditions

The evidence of one man like Mr. Arendt is more convincing proof to you of the merits of Pe-ru-na than any written words of ours. For fifty years Pe-ru-na has been the standby of the American family for diseases due to catarrhal inflammation of the mucous membranes lining the organs of the body. Thousands, like Mr. Arendt, have proved the effectiveness of Pe-ru-na for coughs, colds, nasal catarrh, stomach, bowel and liver disorders or any disease characterized by a catarrhal condition. If your suffering is the result of a catarrhal disorder try Pe-ru-na. It is a true, tried medicine.

## CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get a bottle of Cardui I would try it... commenced taking it, however, that evening I called my family about... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial. J. 71

### OFF-HAND OBSERVATIONS

By FLETCHER DAVIS,

Field Agent of the State Department of Agriculture.

In the Southland Farmer of November 15, 1919.

This has been a most extraordinary year in the matter of summer and fall rainfall. Almost all previous records in this particular have been broken. These excessive rains, and the accompanying floods in many instances, have been extremely destructive of crops of all kinds; so much so, indeed, that what promised to be an abundance is rapidly changing to a condition of scarcity. It is doubtful if the state as a whole is going to be much better off, from a production standpoint, this year than it was during the dry years.

In view of a situation so peculiar as this no efforts should be spared to harvest and carefully house whatever is left of the crops that have been made. A supply ample to meet the needs of the farm should be safely stored on the farm. The surplus that can be taken care of and kept in a good merchantable condition should not be rushed on the market, for as soon as the depression incident to the glutting of the market with products for which the producer has no adequate storage facilities is over the market is bound to react. When the reaction comes, the man who has had the nerve to store the produce and risk the expense and spoilage will reap a reward in profits that are justly his and for the taking of which he is not to be justly censured.

It has become almost a habit with many of us to abuse the speculators, the middle-men, and some of us are prone to regard them all as "profiteers." This is wrong both in morals and economics. With the majority of us without storage facilities to take care of our produce and without financial means to hold it if we had the storage, if the speculator did not take it off of our hands at harvest time much of it would rot and waste and be a clear loss to us. In the meantime, from a surfeit at harvest time, the world would plunge into absolute need for the product between seasons. Until the farmer stores his products and markets them direct to the consumer the speculator will serve a very important and useful purpose both to producer and consumer. This will come about only when organization among farmers becomes effective and when more attention to the marketing of products by producers has revolutionized the present commercial system. Anything that disturbs the certainty of profits backs the speculator of the game and reacts in demoralized markets to the producer—and sometimes financial ruin to those not able to weather the storm—and that too usually without any compensating benefit to the consumer. Those who have watched the trend of the sweet potato market recently will not have far to seek the tale that this moral adorns. And there are others.

And speaking about sweet potatoes leads us to ask if you have ever observed that human nature is a "strange critter?" Texas has this season produced one of the finest sweet potato crops, both in size and quality in the history of the state. Sweet potatoes, while not altogether their equivalent as food—being different in food constituents—are on the whole richer and more nutritious than Irish potatoes and can be substituted for them in many ways on our tables. Yet we witness the anomalous situation of our own product going begging for a market while we spend thousands of dollars every week importing Irish potatoes from the North and West.

If the terrible waste of feed this year on account of too much rain has taught us the value of the silo as a means of saving our forage our losses will not have been altogether in vain. No farm that keeps as many as ten milch cows should be without a silo. And many farmers have found a judicious feeding of the right kind of ensilage to other classes of live stock very advantageous. A sufficient number of silos would have saved many tons of roughage in Texas this year—roughage that is going to be needed before another crop is harvested.

Many farmers will miss their usual winter pasture this winter because the excessive rains have delayed the sow-

ing of the usual acreage of small grain. These should be given attention as soon as dry weather and the rush of harvest time will permit.

Reports coming from the lower Rio Grande Valley are to the effect that the fall planting of vegetables in that section has been greatly delayed and the acreage will be materially curtailed on account of too much rain. This is probably true of the greater part of the onion belt. This is unfortunate both for the growers and for the consuming public. A recent estimate published by the U. S. Department of Agriculture places the Irish potato crop at 32,266,000 bushels short of 1918; Bermuda onions 2,000,000 bushels short, and the cabbage crop of the Northern states at nearly 200,000 tons less than 1918. This means a smaller cold-storage carry over of these vegetables to come in competition with the early crop in Texas. If this will not stimulate activity in pushing these crops as fast as weather and labor conditions will permit we fail to know an incentive when we think we see one.

By the way, speaking of the Rio Grande Valley and "pushing" all in the same breath reminds us that the Valley is one of the "out-pushingest" places on the map, and one of her pushers is Thomas C. Richardson, Emergency Demonstration Agent of Cameron county. Between his other duties and "while he is resting," Mr. Richardson gets out a mimeographed circular for the benefit of his farmers. The primary purpose of this service is to afford the farmers a medium of publicity for facilitating the exchange of commodities. For instance, if Tom Jones has a surplus pig or bushel of peas he reports this to his agent who inserts a notice of the fact in the first issue of the circular. When the circular is out every man who sees it knows what Tom Jones has to sell or trade. In the same way, if one of his farmers wishes to buy something the want is made known through the same medium. Am not informed as to just how the service is working out, but in view of the fact that it has been going on for some months and his farmers haven't worked Mr. Richardson to death impels me to say that it hasn't yet quite reached my expectations. Besides carrying "swapping" information, this circular also carries timely helpful suggestions, and from a recent issue we copy two that seem applicable to other sections of the country as well as Cameron county. Read them:

"We should destroy the cotton stalks as quickly as possible. Where it is not practical to plow them under completely early in the season, the following plan is to be recommended: Cut the stalks with a slide cutter or any other practical method, leaving two rows standing out of every ten or more, not too far apart; when the cut stalks are dry enough to burn, winnow them on the two rows and burn. The weevils will leave the dry stalks and congregate on the green ones, and you are thus enabled to destroy great numbers of them and prevent their wintering over to start a new generation in the spring. The success of this plan depends largely upon doing the work before the cool northerners drive the weevil into the brush to hibernate. This will materially reduce the number of hibernated weevil, and make their control in the spring much easier and less expensive."

"Last winter our citrus plantings suffered severely from a comparatively light freeze. This was undoubtedly due to the fact that a wet fall and early winter had induced an unseasonable growth, and the trees were full of sap and tender wood when the freeze came. The present indicates a repetition of this condition for the coming winter, and steps should be taken to offset the effects of excessive moisture at this season. Plant crops—oats, or some other heavy feeder that will use up all the moisture possible. Above all do not interplant the orchard with winter truck which must be irrigated during the fall and winter. Cutting off the moisture helps to induce dormancy in the tree. This may be furthered by shading the trees with any available material, setting it on all sides but the north, thus cooling the ground around the tree and cutting off the sunlight. A dormant tree is hard to kill by freezing; a sappy one is very easy to suffer. Any method that will check the flow of sap and give the wood time to harden before frost will increase the safety of your trees."

But getting away from the Valley and the smell of orange blossoms, so to speak, and getting back to pigs and prosaic things, we have a letter from J. C. Hestand, "the man who talks hogs so much that he grunts in his sleep," from the opposite side of the state at Sherman—in which he tells us: "Now is the time to sow oats, wheat, rye and barley for the sows and pigs to have winter pasture. By sowing pasture you will save from one-third to one-half the grain and the hogs will be healthier and grow

NEAR EAST RELIEF

POSTER BASED ON ACTUAL PHOTOGRAPH TAKEN AT ERZURUM, ARMENIA, BY DR. M. S. LITTLEFIELD.

He is only one of 250,000 helpless child victims of Turkish oppression in Western Asia. Clad just as he stands in the picture, a little fellow, with hunger-stricken cheeks, hopeless mouth and frail body, was found wandering in the streets of Igdir, Armenia, by Dr. M. S. Littlefield of the Near East Relief. He was taken to a Near East orphanage, where it was found that his only earthly possession was a garment in which he stood—a worn, patched blanket made from a burlap bag. "I saw this ragged little fellow on one of the busiest business streets of Erzurum, not far from the orphanage," said Dr. Littlefield. "He was aimlessly about and no one was paying the slightest attention to him; the picture shows just the way he stood when I backed against a nearby wall." The photograph is the basis of a striking poster now being distributed by Near East Relief.

An American \$2 Bill Did The Work

BEFORE.

Motherless, fatherless, homeless, nameless, hungry and clad only in rags, the pathetic little three-year-old shown at the left wandered into a Near East Relief orphanage in Armenia. Another photograph of the same child, shown at the right, was taken a week later, this time showing him happy, well clothed and well fed. Somewhere in America is the happy man or woman who contributed the \$2 bill which wrought this miracle. More than a quarter million other helpless little victims of Turkish cruelty and oppression are knocking at the doors of the Near East Relief orphanages in Western Asia. Many more American \$2 bills are needed now to let them in and to care for them until they can care for themselves.

faster on pasture and grain than on grain alone. Don't feed fattening hogs too much corn. Keep them squealing for the next feed. Corn is good and to much fed at one time will cause hogs to eat dirt and too much dirt will cause disease. Feed stock coal once every day to the hogs and give them pasture and they will be healthy and make meat and money for their owners."

But not having been able to "get through" this without getting "on the hog," here is where we "get off."  Manche schwere, harte Stunden;  
 Manchen Tag und manche Nacht  
 Hast du in Schmerzen zugebracht.  
 Standhaft hast du sie ertragen,  
 Deine Schmerzen, deine Klagen,  
 Bis der Tod dein Auge brach;  
 Doch du bist im Himmel wach.  
 R. H. and L. B.  
 Devine, Texas, Jan. 2, 1920.

**In Memory of Aunt Carolina Nester.**  
 Ein treues Herz hat ausgeschlagen,  
 Ein hebevolles, gutes Herz,  
 Das freundlich in des Lebens Tagen  
 Mit uns geteilet Freud' und Schmerz.  
 Das teure Auge ist geschlossen,  
 Erlöschen ist der Liebesblick,  
 Der immer wachte, unverdrossen,  
 Zu foerdern seiner Lieben Glueck.  
 Verstummet ist das Wort der Liebe,  
 Das stets aus ihrem Munde klang,  
 Und das des Herzens edle Triebe  
 Uns Allen kund gab lebenslang.  
 Es ruhen nun die fleiss'gen Haende,  
 Sie waren sonst zu aller Zeit,  
 Bis zu des Lebens sel'gem Ende,  
 Zu ruhest'gem Schaffen gern bereit.  
 Doch nur der Leib versinkt in Schlummer,  
 Ganz raubte dich der Tod uns nicht.  
 Die Seele, frei von Gram und Kummer,  
 Schwingt sich empor zum Himmels-Licht.  
 Dort werden wir dich wiedersehen  
 Wenn unser Lauf einst ist vollbracht,  
 In jenen sel'gen Himmelschoenen,  
 Nach Erdenleid und Grabesnacht.  
 D'rum sei als letzte Liebesgabe  
 Dir tausendfaellig Dank gebracht.  
 Schlaf' wohl in deinem stillen Grabe,  
 Du vielgeliebte, Gute Nacht!

**A UNIQUE RECORD.**  
 Home testimony for Doan's Kidney Pills, published in every locality, is of itself convincing evidence of merit. Confirmed testimony forms still stronger evidence. Years ago, a citizen of Hondo gratefully acknowledged the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the proof more convincing. Cases of this kind are plentiful in the work of Doan's Kidney Pills—the record is unique.  
 Mrs. P. H. Renkin, tinsmith, Hondo, says: "I have used Doan's Kidney Pills and they have been used by others in my family with the best of results. My kidneys were disordered and acted irregularly. I saw Doan's Kidney Pills advertised and in this way I first became acquainted with their merits and started to use them. One box of Doan's entirely removed the trouble."  
 ALWAYS GETS GOOD RESULTS.  
 The above statement was given May 29, 1915, and on May 5, 1919, Mrs. Renkin said: "I am just as firm a believer in Doan's Kidney Pills now as when I previously endorsed them. I use Doan's when my back or kidneys bother me and they always cure the attacks."  
 Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Renkin had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

**League Entertainment.**  
 A very delightful evening was spent at the home of Mr. and Mrs. O. E. Lacy on December 31, when the "Blues" honored their winning opponents, the "Reds" with an entertainment, the Reds having won by a small majority in the attendance contest in the Epworth League.  
 Several games of "42" were enjoyed after which delicious refreshments of chocolate and sandwiches were served to sixty-four guests.  
 The evening was interspersed with music and song while all waited to welcome the New Year.

**Earthquake in Mexico.**  
 Last Saturday night a heavy earthquake was felt in ten Mexican states from the Isthmus of Tehuantepec in a northwesterly direction about 500 miles and from the Gulf of Mexico to the Pacific. According to reports the center of the seismic convulsion was in the neighborhood of Mount Orizaba, a volcano about 70 miles west of Vera Cruz. Two villages, Teocelo and Couztlan, have been destroyed and many people lost their lives. Severe shocks caused damage in Jalapa, Orizaba and Cordoba. Panic stricken people fled to the churches. In San Juan Coscomatepec the church tower collapsed and many people were killed and wounded. In Mexico City only large buildings suffered slight damage. The two huge volcanoes near there, Popocatepetl and Iztaccihuatl kept quite. The first shock was felt at 9:45 on Saturday evening, lasting five minutes; the second, at 10:30 p. m., was brief but of terrible intensity and accompanied by terrifying subterranean noises; and the third shock, at 11:01 was only noticed at the observation stations, by the seismograph.

### Bandera New Era News.

Miss Theresa Saathoff and Mr. Bryan Sparks surprised many of their friends by going to Bandera Sunday where they were united in marriage at the home of Rev. I. V. Garrison. Miss Theresa entertained the young folks at the home of her parents that night. We understand that they will make Tarpley their future home.—Tarpley Cor.

Tarpley expects to be greatly benefited by the recent road bond election which carried in Medina Co. for \$800,000, in that the road between here and Hondo will receive a part of the money. Some good permanent improvements have been made by the citizens free work and more is to be done soon.—Tarpley Cor.

A. L. Minsfield had the misfortune to get his Ford car burned on the evening of Dec. 20. It caught on fire from a toy torpedo which was thrown too near it while the gas tank was being filled at Ruge's garage. The car was rolled down the hill out of the danger line and all efforts to put out the fire were futile. It was a complete loss.

Medina County is getting ready to spend its \$800,000 bond issue on the public roads. It is thought this may affect the trade of this county, as the railroad town that gives us the best highway to it will no doubt draw heavily upon the trade of our farmers. But we predict that our Kerrville and San Antonio roads will soon be put in order. Let us hope so at least.

Less Short, who is a student at A. & M. College, spent the holidays at home here with his parents, Mr. and Mrs. J. W. Short.

Joe Montague from the State University and L. J. Montague from the State Medical College were at home to spend the Christmas holidays with their mother, Mrs. Chas. Montague.

Mrs. Rose Gardiner and Misses Margaret and Vic Montague came home from San Antonio for the holidays.

Mrs. Henry Haby and three children spent two days the past week at Haby settlement visiting Grandma Jacob Haby. The old lady was quite ill but is better now.

### The Best Cough Medicine.

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Cubrun, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever known."

### Sabinal Sentinel Siftings.

Miss Vera Jones has accepted the position of Assistant Cashier in the First State Bank of Sabinal, having given up her position in the Sabinal National Bank.

Mr. Nic Hans of Utopia was down Tuesday for supplies. Mr. Hans has recently moved to Utopia from Bandera county. He moved there on account of the fine school at Utopia.

Mrs. Fred Reinhart of D'Hanis is visiting Mr. and Mrs. Jacob Reinhart.

Mr. C. M. Neatherlin was down from Utopia Tuesday on business.

Mr. A. Margulies and wife and son of Dallas are visiting Mr. B. Marks and family.

Mr. H. W. Reilly will be a trip Sunday to visit his son, Mr. Harold Reilly, and family.

Miss Adela Reinhart of San Antonio came out Wednesday to visit her parents, Mr. and Mrs. Jacob Reinhart.

Mr. and Mrs. Arthur Rothe and little daughter of Seco spent Xmas with Mr. and Mrs. Jacob Reinhart.

Mr. F. X. Haby of Utopia went to San Antonio Monday night to visit her son.

Miss Vera Jones spent Xmas day in Hondo.

Mrs. V. P. King of Hondo was visiting Mrs. T. L. Barrington Sunday and Monday.

Mrs. C. M. Cullings and little son, Thomas, returned Tuesday from a visit with relatives in Hondo.

### Stomach Trouble Cured.

If you have any trouble with your stomach you should take Chamberlain's Tablets. Mr. J. P. Klote of Edina, Mo., says: "I have used a great many different medicines for stomach trouble but find Chamberlain's Tablets more beneficial than any other remedy I ever used."

Judging by the news in the papers, wood alcohol makes a heavier load than iron tonic.

### ENABLES HER TO TAKE LONG TRIP.

Henkle Says Wife Improved So  
Much On Taking Tanlac She  
Boasts of Her Health.

"After years of suffering Tanlac sure put my wife in a fine state of health and she often boasts of how well she is feeling," said George H. Henkle, of 1302 Eastlands Avenue, Nashville, Tenn.

"For years," he continued, "she was almost a confirmed dyspeptic and she suffered also from a nervous affection. Right after meals gas would form on her stomach, which kept her in distress most all the time. She always had to be most careful about her eating and was troubled at times with dizziness and swimming of the head. For a long time she had wanted to take a trip North, but couldn't do so on account of her condition."

"When she saw Tanlac advertised and so many people endorsing it, she decided to try it and found almost immediate relief. Tanlac gave her a fine appetite and put her stomach in fine shape, so she could eat and enjoy her meals without having any trouble afterwards. She hasn't complained of dizziness or swimming of the head since starting on it and that nervous condition has also quite disappeared. Tanlac built her up so she was enabled to take a trip North, where she was gone four months, and she wasn't sick a minute of the whole time she was away. She is delighted with what Tanlac has done for her and thinks there is no other medicine like it."

Tanlac is sold in Hondo by W. H. Windrow, and in Castroville by Joseph Courand & Co.

Miss Alma Mangold from Tarpley who spent the past month with her sister in San Antonio and sister, Miss Hilda, from Tarpley are spending the holidays with relatives and friends here and at Castroville.—Lacoste Ledger.

A vast amount of work now remains to be done which the intervention of war has necessarily delayed and accumulated, and the result is that . . . very large capital expenditures ought to be made to make up for the interruptions inevitably due to the war, and to prepare the railroads to serve adequately the increased traffic throughout the country.

WALKER D. HINES,  
Director General of Railroads.

Work more—  
Produce more—  
Save more—

But we can't continue increasing our production unless we continue increasing our railroad facilities.

The farms, mines and factories cannot increase their output beyond the capacity of the railroads to haul their products.

Railroads are now near the peak of their carrying capacity.

Without railroad expansion—more engines, more cars, more tracks, more terminals—there can be little increase in production.

But this country of ours is going to keep right on growing—and the railroads must grow with it.

To command in the investment markets the flow of new capital to expand railroad facilities—and so increase production—there must be public confidence in the future earning power of railroads.

The nation's business can grow only as fast as the railroads grow.

This advertisement is published by the  
Association of Railway Executives

Those desiring information concerning the railroad situation may obtain literature by writing to the Association of Railway Executives, 61 Broadway, New York.
